DENNIS MWATHA MAINA

FULL-STACK DEVELOPER

Kasarani, Nairobi, Kenya | +254 790 399 941 | dennowmyner04@gmail.com
LinkedIn: linkedin.com/in/dennow-myner | Github: github.com/DENNISMYNER
Portfolio: portfolio-website-verc.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of professional experience designing, developing, testing, deploying and maintaining modern web applications. Strong expertise in TypeScript, JavaScript, React, Next.js, Node.js, Express.js and PostgreSQL, with hands-on experience building responsive user interfaces, RESTful APIs, authentication systems, database-driven applications and third-party integrations. Experienced across the full software development lifecycle, including requirements analysis, application architecture, database design, API development, testing, version control, CI/CD and cloud deployment. Strong problem-solving and collaboration skills with a focus on writing maintainable, secure and scalable software.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML5, CSS3, Python

Frontend Development: React.js, Next.js, Tailwind CSS, shadcn/ui, Responsive Web Design, Component-Based Architecture, Client-Side State Management

Backend Development: Node.js, Express.js, Next.js API Routes, Route Handlers, RESTful APIs, API Development, Middleware, Authentication, Authorization, JWT, Input Validation, Error Handling

Databases: PostgreSQL, MySQL, MongoDB, Firebase, Prisma ORM, SQL, Relational Database Design, Database Modeling, CRUD Operations, Database Queries, Joins, Migrations

Testing & Quality: Jest, Vitest, Playwright, Unit Testing, Integration Testing, End-to-End Testing, API Testing, ESLint, Prettier

DevOps & Cloud: Docker, GitHub Actions, CI/CD, Vercel, Cloud Deployment, Environment Configuration

Development Tools: Git, GitHub, VS Code, Postman, npm, Linux, Browser Developer Tools

Architecture & Security: Full-Stack Architecture, REST Architecture, Authentication & Authorization, Role-Based Access Control, Secure API Design, Data Validation, Error Handling, Database-Backed Applications

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Kijiji Digital Technologies Ltd — Nairobi, Kenya January 2024 – Present

- Design, develop and maintain production-ready full-stack web applications using TypeScript, React, Next.js, Node.js and PostgreSQL.
- Build responsive, reusable and accessible UI components with React, Next.js and Tailwind CSS using component-based architecture.
- Design and implement RESTful APIs and backend services with Node.js, Express.js and Next.js Route Handlers.
- Design relational schemas and data access layers with PostgreSQL and Prisma ORM, including migrations and database transactions for business-critical workflows.
- Implement secure authentication and authorization, including registration, login, session management, role-based access control and protected API endpoints.
- Integrate third-party REST APIs and external services with reliable error handling, middleware and server-side data validation.
- Write unit, integration and end-to-end tests to improve application reliability and reduce regressions.
- Use Git and GitHub workflows including branching, pull requests and code reviews; containerize applications with Docker and configure CI/CD pipelines for automated testing and deployment.
- Investigate and resolve frontend, backend, API and database issues, improving performance, reliability and maintainability.
- Collaborate with designers, developers and stakeholders to translate business requirements into technical solutions.

Freelance Full-Stack Developer

Independent — Kenya / Remote July 2024 – Present

- Develop custom websites and full-stack web applications for clients and independent projects using TypeScript, React, Next.js, Node.js and PostgreSQL.
- Convert business requirements and frontend concepts into responsive, database-driven web applications.

- Build reusable React components and modern user interfaces with Next.js, Tailwind CSS and shadcn/ui.
- Develop RESTful APIs, authentication systems, database models and backend business logic with Node.js, Express.js and Prisma.
- Integrate third-party APIs, payment services and external platforms (API integration).
- Apply modular architecture to support maintainability, scalability and future integrations.
- Configure Git/GitHub repositories, environment variables and deployment workflows for client and personal applications.
- Troubleshoot errors, optimize performance and implement improvements based on testing and user feedback.
- Gather requirements directly from clients and stakeholders and deliver technical solutions.

Junior Full-Stack Developer / Software Development Intern

Nairobi Digital Solutions — Nairobi, Kenya August 2023 – November 2023

- Assisted in developing responsive web applications using JavaScript, React, HTML5 and CSS3.
- Supported backend development with Node.js and Express.js, including REST API implementation and integration.
- Assisted with PostgreSQL and database-driven application development, including CRUD operations and queries.
- Implemented frontend components and integrated them with backend APIs for end-to-end functionality.
- Participated in debugging, testing and troubleshooting frontend, backend and API issues.
- Used Git and GitHub for source control, branching, commits and collaborative development.
- Assisted with application documentation and technical requirements.
- Worked with senior developers to learn software architecture, coding standards and secure development practices.

PROJECTS

HUDUMA360 — Digital Services Platform

Next.js | TypeScript | React | Node.js | PostgreSQL | Prisma | Tailwind CSS

- Built a full-stack digital services platform giving users centralized access to multiple services.
- Implemented authentication, user management, service workflows and role-based functionality.
- Developed a RESTful API architecture connecting the frontend to PostgreSQL-backed services.
- Designed a modular external API integration layer so mock services can be replaced with production APIs.
- Built a responsive React/Next.js interface with Tailwind CSS and reusable components.

RENTLINK — Property & Tenant Management Platform

Next.js | TypeScript | Node.js | PostgreSQL | Prisma | Tailwind CSS

- Developed a landlord/tenant platform with authentication, role-based authorization, property and tenant management, and rent tracking.
- Designed the PostgreSQL schema and Prisma models for users, properties, leases, payments and transactions.
- Designed a payment architecture with support for future third-party payment and IoT integrations.

KENYASHOP — E-Commerce Platform

Next.js | TypeScript | PostgreSQL | Prisma | REST APIs

- Built an e-commerce application with product management, customer accounts, shopping cart and order workflows.
- Developed REST APIs and Prisma/PostgreSQL data models for products, customers and orders.
- Designed the payment integration layer to support future payment-provider integration.

BUSINESSFLOW — SME Management Platform

React | Next.js | TypeScript | Node.js | PostgreSQL

- Developed a SaaS-style platform for managing customers, products, transactions and operational data.
- Implemented authentication, role-based access control and organization-level data management.
- Built REST APIs and dashboards displaying business metrics for PostgreSQL-backed workflows.

AI-POWERED WEB APPLICATION

Next.js | TypeScript | React | PostgreSQL | AI APIs

- Integrated external AI APIs into a secure full-stack application using server-side API routes that protect API credentials.
- Implemented authenticated user workflows and persistent PostgreSQL data, with a responsive interface for AI features.

EDUCATION

Diploma in Information Technology

Dedan Kimathi University of Technology January 2022 – December 2023

Key modules: Computer Packages; Principles of Computer Support & Maintenance; Management Information Systems; Network Design and Setup; Programming (C, Python & Java); Software Engineering; Web Development (HTML5, CSS, JavaScript, PHP); Database Programming (MySQL); Entrepreneurship Skills; Communication Skills

Kenya Certificate of Secondary Education — Nyeri High School

Mean Grade: B-

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Meta
- Meta Back-End Developer Professional Certificate — Meta
- AWS Certified Cloud Practitioner — Amazon Web Services
- Microsoft Azure Fundamentals (AZ-900) — Microsoft
- Docker Foundations — Docker
- JavaScript Algorithms and Data Structures — freeCodeCamp

PROFESSIONAL SKILLS

Agile/Scrum, Software Development Lifecycle, Requirements Analysis, Problem Solving, Debugging, Code Review, Technical Documentation, API Documentation, Team Collaboration, Client Communication, Software Architecture, Continuous Learning
