PROFESSIONAL SUMMARY

Results-driven IT Specialist & Full Stack Developer with a Diploma in Information Technology and 2+ years of hands-on experience across ICT infrastructure support, database administration, and modern full-stack web development (React, Next.js, Node.js, PostgreSQL). Proven track record in troubleshooting complex systems, deploying secure web platforms, and managing telecommunications site documentation. Skilled at bridging technical infrastructure with custom software solutions to drive operational efficiency.

CORE COMPETENCIES

ICT Technical Support • Network Troubleshooting • Systems & Database Administration • Full-Stack Software Development • RESTful APIs • Information Security & Access Control • User Support & Training

PROFESSIONAL EXPERIENCE

ICT OPERATIONS & SUPPORT SPECIALIST — CMT Realtors Limited *February 2024 – Present*

Nairobi, Kenya

- Delivered tier-1/tier-2 ICT support, resolving hardware, software, and network issues for internal staff with a high first-contact resolution rate.
- Assisted in site assessments, reporting, and documentation for 40+ telecommunications infrastructure acquisitions.
- Maintained operational databases, performed system backups, and documented IT workflows to improve system reliability.
- Managed workstation setup, software deployment, and peripheral configuration across company departments.

FREELANCE ICT & SOFTWARE DEVELOPER — Self-Employed *July 2024 – Present*

Kenya / Remote

- Architect and deploy responsive full-stack applications using Next.js, React, Node.js, TypeScript, and PostgreSQL.
- Design, optimize, and maintain relational schemas using PostgreSQL, MySQL, and Prisma ORM for client projects.
- Implement robust security controls including JWT/OAuth authentication, role-based access control (RBAC), and data validation.
- Perform application debugging, REST API integration, performance optimization, and custom technical documentation.

ICT & ADMINISTRATIVE ATTACHÉ — National Health Insurance Fund (NHIF) *August 2023 – October 2023*

Nanyuki, Kenya

- Provided technical support for digital member registration, biometric enrollment systems, and network peripherals.
- Captured and verified confidential client data within institutional information systems, maintaining 100% data compliance.
- Assisted with network troubleshooting and hardware maintenance to ensure zero service disruption in branch operations.

SELECTED PROJECTS

ITSM Helpdesk — IT Service Management System *Next.js | TypeScript | PostgreSQL | Prisma ORM*

- Built a full-stack ticketing platform supporting incident reporting, priority assignment, and status tracking.
- Integrated role-based access controls (RBAC) and audit logging for administrative oversight.

Huduma360 — Digital Services Platform *Next.js | TypeScript | PostgreSQL | REST APIs*

- Developed a centralized platform for managing public/digital service requests and user profile management.
- Built secure REST API endpoints and responsive UI components for seamless user navigation.

Task Board — Interactive Task Management App *Next.js | React | TypeScript | PostgreSQL*

- Designed a drag-and-drop task management board featuring real-time state updates and database persistence.

Network Design & WAN Connectivity *Cisco Routers | TCP/IP | VPN Configuration | LAN/WAN*

- Simulated and configured a secure multi-site WAN architecture connecting 3 remote branch offices to central HQ.

Database Design & Management System *PostgreSQL | MySQL | SQL | Prisma ORM*

- Designed relational database schemas to organize and manage structured application data.
- Implemented database relationships, queries, validation, and CRUD operations to support data integrity and efficient information retrieval.

Secure User Authentication & Access Control *Next.js | Node.js | REST APIs | PostgreSQL*

- Implemented user authentication and role-based authorization to restrict access to protected application features.
- Applied input validation and secure data-handling practices to reduce common application security risks.

TECHNICAL SKILLS

- Languages & Web: TypeScript, JavaScript, Python, HTML5, CSS3, SQL
- Frameworks & Libraries: React, Next.js, Node.js, Express.js, Prisma ORM
- Databases & Cloud: PostgreSQL, MySQL, MongoDB, Firebase, Microsoft Azure (AZ-900), Docker, Vercel
- Networking & Support: TCP/IP, LAN/WAN, VPN, DNS/DHCP, Windows/Linux Administration, Hardware Diagnostics
- Developer Tools: Git, GitHub, VS Code, Postman, Cisco Packet Tracer

EDUCATION & CONTINUOUS LEARNING

Diploma in Information Technology *2022 – 2023*

Dedan Kimathi University of Technology | Nyeri, Kenya

- Relevant Coursework: Computer Support & Maintenance, Network Design, Database Programming, Software Engineering, Systems Analysis, Web Development, and Management Information Systems.

Self-Directed ICT & Software Engineering Development *2023 – Present*

Independent Study & Online Technical Training

- Continuously Advancing ICT and software engineering expertise through self-directed learning, technical documentation, and hands-on projects.
- Developed practical skills in ICT support, network troubleshooting, systems administration, database management, full-stack development, API integration, and cloud deployment.

Kenya Certificate of Secondary Education (KCSE) *2010 – 2013*

Nyeri High School | Nyeri, Kenya

- Mean Grade: B-

Certifications:

- Meta Front-End Developer Professional Certificate
- Meta Back-End Developer Professional Certificate
- Microsoft Azure Fundamentals (AZ-900) & Docker Foundations
- FreeCodeCamp: Full-Stack Developer Certificate| Responsive Web Design Certificate | JavaScript Certificate | Relational Databases Certificate | Python Certificate | Back-End Development & APIs Certificate
